

Approved Trucks

Linde Material Handling

Quality used trucks from
the name you can rely on

Linde

Three levels of quality Approved trucks

A Linde Approved used truck offers you quality that can be relied on at a price that represents the best value for money. The Linde Approved range typically comprises ex-contract equipment that has been serviced from new to the manufacturer's recommendations. Our comprehensive workshop facilities mean that the truck specifications can invariably be matched to your specific needs.

Contact your nearest national network company on 0845 608 5000 for additional information.

Three Star

- Fully serviced to manufacturer's recommendations
- Engine pressure and emissions checked and certified
- Charger function and PAT tested and certificated
- Electric motors proof-tested
- Tyres serviceable
- Operator's seat and seat belt serviceable
- Transmission drive-tested
- Repainted to manufacturer's original colours
- Operator's handbook provided
- Full serviceability and functionality check to conform to LOLER and PUWER (certificate provided)

Three Star Warranty

PAT	(Portable Appliance Testing)
LOLER	(The Lifting Operation and Lifting Equipment Regulations 1998)
PUWER	(The Provision and Use of Work Equipment Regulations 1998)

Four Star

As three star programme, **plus** the following

- Serviceable tyres no more than 40% worn
- Operator's seat renovated including seat belt
- Transmission pressure-tested to manufacturer's recommendations
- Mast, carriage and hydraulics tested to manufacturer's specification
- Steer axle checked and set to manufacturer's specification
- Hour meter function-tested

Four Star Warranty

Five Star

- Charger reconditioned, PAT tested and certificated
- Electric motors overhauled
- New set of tyres
- New hour meter
- New forks and lift chains
- New wiring loom
- New operator's seat and seatbelt
- Transmission tested and proved to manufacturer's specification
- Mast and carriage overhauled
- Hydraulic system tested, re-sealed and proved to manufacturer's specification
- Full preparation and repaint to manufacturer's original colours

Five Star Warranty

The Linde Approved process

1. Ex-contract trucks

Trucks chosen for refurbishment are typically ex-contract, maintained from new by Linde engineers

2. Pressure washing

Each truck is thoroughly steam cleaned to remove all accumulated dirt and grime prior to inspection

3. Comprehensive inspection

A qualified engineer carries out a meticulous examination to identify areas of the truck and components requiring attention. Only genuine Linde parts are used in the refurbishment process

4. Emission/pressure test

On engine powered trucks, to ensure complete operational reliability and compliance with exhaust emission regulations, the engine undergoes stringent testing using the most up to date diagnostic equipment

5. Battery and charger

On electric trucks, the battery is checked to ensure serviceability, and cells replaced where necessary. A new, fully guaranteed battery is supplied under the five star programme

6. Refurbishment process

Components are either repaired or replaced depending on programme level selected

7. Repaint

All trucks are repainted to the manufacturer's original colours to provide a quality finish, prior to new decals and the Approved truck identification plate being fitted

8. Pre-delivery check

The final procedure is the multi-point check and LOLER/PUWER inspection, including chain and fork certification by an independent engineer. A LOLER/PUWER certificate is provided with every machine

No-one is closer to your business.
